

Rebecca Friedlander has watched God use her music and potter's wheel to impact thousands of lives. Across denominational lines, people often respond with tears to see the clay being formed under the potter's hand and hear songs of healing and restoration. Jeremiah 18:1-6 and the story of God's love comes to life right before their eyes!

For over 7 years Rebecca has ministered full time both in the States and internationally. Using guitar and piano, as well as a variety of instruments, she has recorded and produced or co-produced 10 CDs with all original songs (~except for 3 cover tunes on her first CD) and copyrighted over 300 songs. In 2009, she recorded a 5 song EP with Dove Award winning songwriter Jennie Riddle, who co-produced "Butterfly CD" for her. Her recent CD entitled "Parables" is full of original songs which unfold mysteries of the Kingdom of God within a story song.

In July of 2007 her TV program "Seeds" began airing on local networks, and now internationally airs on JCTV, the youth channel affiliate of TBN. Her show features both local artists and national artists such as Mandisa, Rick Pino, Todd Agnew and many more. She's filmed on location in Scotland, Israel, and England to help bring Biblical truths to life. Using the Creative Arts for Jesus is her dream!

While active in her community as a passionate worship leader and speaker, Rebecca continues to explore the outlets available to share about God through the arts.

Leading up to these current art endeavors, Rebecca spent several years as a cast member of the passion play drama "The Promise" in Glen Rose, TX. She worked as an intern at Somma Music and Recording Studio for 2 ½ years, and has held position of worship leader in both denominational and non-denominational churches.

### Chris Legg, LPC--Pine Cove Retreat Center Staff Chaplain

"I have seen Rebecca teach through the potter demonstration a couple of times now to very different audiences (a room full of ministers and a room full of fathers and their teen daughters - both gave great feedback), and I think it is nothing short of a modern-day parable. The talk manages to include scriptural insight (lots of it), emotional powers, Spiritual depth, and a great analogy about God's relationship to us. Few messages are as important as being reminded who God is and who we are in His Hands."

### Fr. Kevin Whittmayer ~Rector

"Rebecca was a delight to have in our church. Rebecca uses her God given gifts to proclaim God's Word with skill and sensitivity. Her talent as a Potter helps her describe in a visual way the relationship we have with our God as His creation. Rebecca uses her gifts as a singer and songwriter to set the stage for ministry as God's storyteller. I highly recommend Rebecca and her multi-dimensional ministry to you."

### Dr. Christine Beaucage Ph.D ~Co-owner of Paraclete Publishing

"Though it's a joy to listen to Rebecca's music, the best part is that Rebecca worships as she sings; her praise carries you into the presence of the Lord. Since she is led by the Spirit, Rebecca's presentations are always fresh and different. But each time is God-centered and wonderful. Rebecca has dedicated her life to loving and following Jesus -- and it shows--."
